Give A Gift That Keeps On Giving

Tips For Making Your Fundraiser a Success!

Fundraising can be a very stressful task to take on. Let us help you make it a fun and successful experience for your school. Here are some tips that will make your fundraising events run smoothly.

1. Establish a Purpose and a Theme

Explain to your supporters what you are doing and why.

2. Get Organized

Don't try to do everything yourself. Assign all volunteers jobs and tasks to be completed.

3. Get Everyone Involved

Your community can get involved too (ie. businesses, church groups, scouts, schools, etc ...) Use your resources to advertise and promote your fundraising idea. Try hanging posters and flyers, sending home ads with the students, give flyers to your local businesses to help promote.

4. Establish a Time Frame and a Goal

Defining your campaign's beginning and end date. Set a goal for every participant, each group and a goal for the whole fundraising.

5. Thank your Supporters!

After your event, send out an update on how it all went, how much you raised and thank your supporters for their support. After all, you may need their help again.
